

Strength for today and new hope for tomorrow

Cell Tower Rental Fees

Current Contract (2015-2020 with expected extensions through 2035)

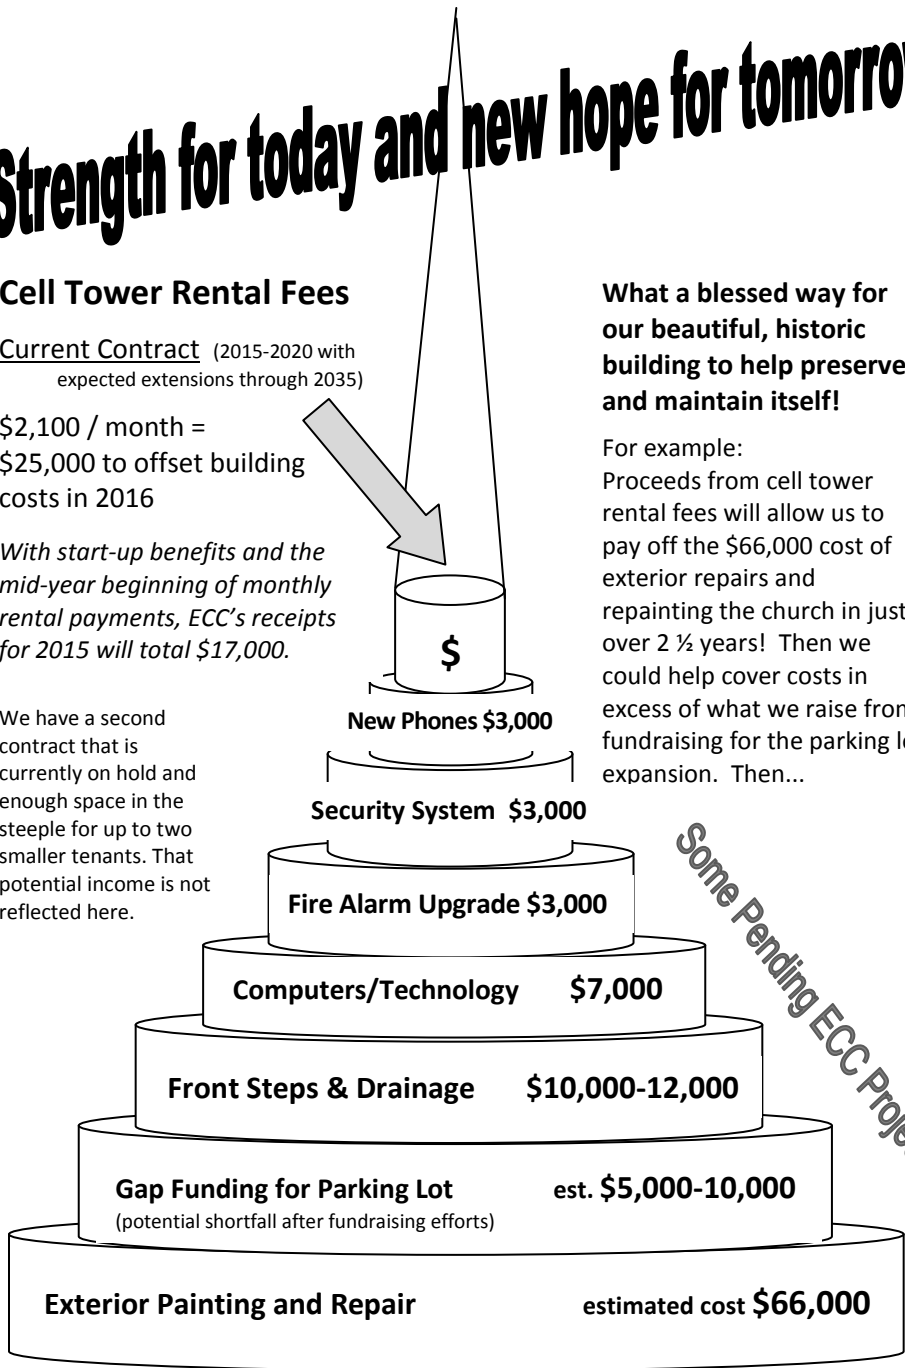

\$2,100 / month =
\$25,000 to offset building costs in 2016

With start-up benefits and the mid-year beginning of monthly rental payments, ECC's receipts for 2015 will total \$17,000.

We have a second contract that is currently on hold and enough space in the steeple for up to two smaller tenants. That potential income is not reflected here.

What a blessed way for our beautiful, historic building to help preserve and maintain itself!

For example:
Proceeds from cell tower rental fees will allow us to pay off the \$66,000 cost of exterior repairs and repainting the church in just over 2 ½ years! Then we could help cover costs in excess of what we raise from fundraising for the parking lot expansion. Then...

...May you lead lives worthy of the Lord, fully pleasing to him, as you bear fruit in every good work and as you grow in the knowledge of God. (Colossians 1:10)
